TAB B to
IAC-D-81/14.4
20 June 1956

Draft - 14 June 1956

Memorandum for:

25X1C

Subject

: Use of [REDACTED]
for the Collection of Guided Missile
Intelligence

25X1D

1. The Intelligence Advisory Committee (IAC) of the U. S. National Security Council has reviewed with interest your letter of 14 February 1956, relative to the use of [REDACTED]

25X1D

25X1D

[REDACTED] for the collection of guided missile intelligence.

2. As you know, the [REDACTED] has long had cognizance of and has pursued developments in the field of [REDACTED]

25X1C

25X1D

25X1D

[REDACTED] as applied to guided missiles. Recent reports to the IAC from its Guided Missile Intelligence Committee (GMIC) serve further to emphasize current and continuing [REDACTED] interest in this field.

25X1C

25X1D

3. We have concluded that [REDACTED] is a feasible mechanism for the collection of certain elements of guided missile intelligence, and feel that there is indeed a reasonable prospect of producing suitable scientific aids for such collection.

4. We can assure you of our intention to further pursue developments in this promising field. We will keep you informed of significant developments through our established channels of communication.

ALLEN W. DULLES

Chairman

Intelligence Advisory Committee
